

## eLONG-LIFE Trumpet 12V TE40 - Electronics Horn

**Part Number - 007.728-981**

**MRP : INR 3999**

### Details

HELLA has more than 100 years of experience in manufacturing high-quality acoustic devices and ensure a pleasant & harmonic sound. We work with vehicle manufacturers so you can rest assured that your horns feature state-of-the-art and the best technologies.

The quality of horns is not easy for people to gauge. HELLA quality isn't just seen, it's also heard: our specialized experience in developing horns and air trumpet horns complies with strict ECE and OEM requirements, both in applications for two wheeler, passenger cars and commercial vehicles. Our manufacturing plant HELLA India Automotive (HIA) is fully committed to research and development as well as showing a strict adherence to quality manufacturing.

For various vehicle applications, HELLA provides recommendations on how to choose the right product. You can find details in the product page. HELLA recommends mounting a horns in pair to replace the vehicle's horn.

**Volume :** This is one of the main key performance indicators for a horn's characteristics. HELLA has a wide product range of horns in the volume range of 109 dB(A) to 115 dB(A)

**Functional Principle :** Signal horns are powered by battery current, which is normally controlled by a switching current, which is, in turn, controlled by the steering wheel. This is sent to a relay, which ensures a uniform power supply for the horn. As soon as there is supply voltage at the horn's solenoid, its armature is attracted together with the diaphragm. The power supply is triggered cyclically, meaning that there is an audible oscillation: the signal. If the horn is electronic, the oscillation is, of course, generated via the electronics. That is the reason why an electronic horn is much more trouble-free than a classic horn, where the oscillation is generated by mechanically controlling the solenoid.

**Application :** Horns are a mandatory part of the safety equipment of a vehicle. A particularly perceptible sound is necessary in order to be able to warn other road users optimally in dangerous situations. Our signal horns offer you a high level of functional reliability.

### Features

Application	UNIVERSAL
Rated Voltage	12V
Current	Max 8.0 Amp
Frequency	400/500 Hz
Sound	109 to 115 dB (A)

### Warranty

#### Address:

Hella India Lighting Ltd.  
6A, 6th Floor, 184, Platinum Tower
